

Integrated tools and methodologies for sustainable Mediterranean cities

We are pleased to invite you to the **4th Local Project Committee of Sustainable MED Cities**

**The event will take place on December 15th, 2023, from 10H00 to 12H00 ,
At The Municipality Building**

The Agenda of the 4th LPC :

- Welcome by the organizer and short presentation of each participant (5m)
- **Session 1:** Presentation of the final results achieved through the SMC decision-making methodology testing activity .
 - Description of the **retrofit scenario developed**, and the procedure followed to achieve the results (30 m).

' During this session the municipality, together with the external experts involved in the testing activity, must highlight the strengths and weaknesses of the SMC decision-making methodology encountered during the overall process. '

 - Free discussion, collect suggestions from participants about the main outcomes raised during the presentation and on how to improve the SMC testing activity (30 min).
- **Session 2:** How to capitalise the results of Sustainable MED Cities in future municipality activities
 - : Explanation of the main outcomes of the project (for example: the tools contextualised to municipalities prerogatives, a collaborative platform, an operational decision-making methodology, a working training system, etc.) (20 min).
- Feedback from participants on municipal, regional and national opportunities where to capitalise such kind of results, already owned by the municipality thanks to the SMC project (free discussion) (30 min).

This project has received funding from the European Union's ENI CBC Med Programme under Grant Contract C_B.4.3_0063
